

# EATBETTER<sup>®</sup> PET FOOD BOWL

Slows down your dog's eating

- Encourages slower, healthier eating
- Reduces vomiting and bloating
- Improves absorption of nutrients through better digestion
- Has sturdy non-skid design
- Is made of high-quality, food grade, dishwasher safe plastic that does not contain Bisphenol-A

EatBetter helps your dog eat more slowly, minimizing many of the health issues associated with fast-paced eating including indigestion, vomiting and bloating. The wishbone center of the bowl creates an obstacle that prevents gulping or vacuuming behaviors. The bowl's innovative design encourages dogs to take smaller mouthfuls and chew more.

To help promote healthier eating habits, the EatBetter bowl incorporates a raised wishbone-shaped partition that provides easy access to food, but prevents dogs from gulping their meal too quickly. The bowl's innovative design encourages dogs to eat slower, take smaller mouthfuls, chew more, and avoid overeating.

Along with the DrinkBetter bowl, the EatBetter bowl encourages dogs to adopt a slower, healthier pace at mealtimes.

## SPECIFICATIONS

**Attractive design:** Each bowl is ergonomically designed with rounded edges so that it does not cause any discomfort during feeding.

**Non-slip base:** The EatBetter has a three-point non-slip pad to prevent the bowl from moving when your dog eats, ensuring your dog can eat comfortably.

**Extremely durable:** Made from a high-quality food-grade plastic — the bowls are chew resistant, and can survive all manner of drops and knocks.

**Ideal for any dog:** The EatBetter bowl is available in small, medium and large size. Colour choices include blue, pink and white (large size is only available in blue).
